

## CHRISTIAN LIFE CATHEDRAL OF NORTHWEST ARKANSAS

---

To Whom It May Concern;

I am thrilled to report to you of the exciting progress and events of Dean and Melissa Lowman, Directors and Founders of Heaven's Reach Ministry. Their ministry to the country of Honduras continues to be met with great favor. The medical community is not only looking to the Lowman's for much needed medical equipment but for the ongoing technical training and support. It is obvious that their walking in obedience through one door opens a variety of other opportunities for ministry. God has allowed for personal ministry to individuals that traditional faith based efforts may not get to experience.

In 2011 they formed Ministerios Alcanzando Desde El Cielo, a registered, non-profit ministry in Honduras and they are currently under the covering of Honduran Fellowship of Missionaries and Ministers.

They have recently started seminary classes in three cities with more than 100 students. Dean's desire and plan is to establish a demonstration farm in Honduras to teach local farmers sustainable agriculture in order to grow more quality and quantity of food for their families. This is quickly becoming a reality.

I believe in their vision, I support their efforts and I recommend them without reservation. If I can assist you in anyway, please don't hesitate to call on me.

In His Service,

Steve Dixon  
Senior Pastor
