News Letter October 08

Mission Honduras

Showing, Teaching, and Releasing God's Love

Life is good and busy!

- Mamas and babies doing well
- Computer classes to begin
- Truck found and purchased
- Teams prepare the foundations

October was a busy month. As most of you realize, we did not get our September newsletter out until the end of October. With the teams and other work, we have seen a lot this month.

Taking care of mamas and babies is such a joy and very time consuming. All is well. The babies are growing and are very healthy.

We helped Mercy with two teams this month, building foundations, one for a prophet's quarters.

The prophet's

quarter is a small room addition to one of the churches in the Opalaca Mountains where we will launch out to the rest of the mountain communities.

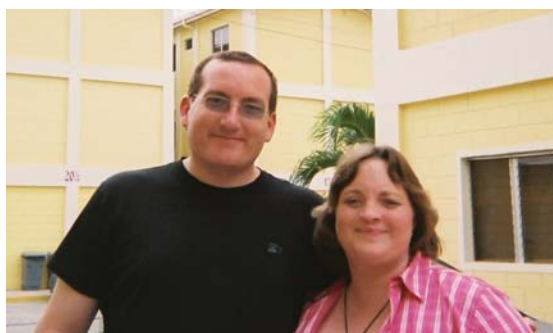

A Personal highlight of the month was a gift from

God. We were able to find a truck suitable for helping Mercy with the money we had. It is a two door 4x4 Toyota Tacoma. Praise God! This is a tremendous boost to our moral and ability to help Mercy. Helping take supplies to the mountains and team members, we quickly put it to use.

I will start teaching computers to students and teachers in a local school and they will be teaching us Spanish.

Plans are starting to come together in the schools. I am helping with the second school so far with their computer lab. Helping with the lab of the primary school led to my teaching.

God Bless you all!

Dean & Melissa Lowman
