

Heaven's Reach Ministries

Lives are being improved and souls are being saved!

Newsletter May 2011

Showing, Teaching, and Releasing God's Love to the World

Our ministry has had many aspects to it since the beginning. But, I feel as though it is evolving into its true purpose! Since we have been blessed with the water well at the hospital, the Sustainable Healthy Living program has begun to flourish.

The local nursing school has become a part of the program by having its 70 students participate in the garden for their community service. They are divided into 2 groups that cover the work in the garden 6 days a week. They are also putting together the education part of the program in Spanish to teach in the Alberge and villages.

We are so very excited to see that not only is the well irrigating the garden and vegetables growing but we are getting involvement from the people that will change the community in a positive way!

One of the things I have wanted to do here is help improve the health care and help people get the health care they need. We have had the opportunity this past month to help many receive the medical care they need and I believe this part of our ministry will only continue to grow!

We are buying seizure medications for a young man, getting ultrasounds for pregnant women, getting mammograms, x-rays, and exams that are needed for people who are unable to obtain them because they are too poor and the resources just aren't available in the public system.

The costs are \$30- \$60 for ultrasounds and doctor visits. It sounds relatively cheap but for people making an average of \$7 a day when jobs are few and far between; it might as well be \$1,000,000.

The twins continue to grow and have almost tripled in size. They were both sick a couple of weeks ago and we were able to get them to the doctor, get the tests they needed, and provide them with the medicines necessary. Praise the lord they are doing great now!

Olga, the mother of the twins, received Christ this past week! I believe because she saw the love, mercy, and miracle of Christ thru the help she received for the twins and in their health the door was opened for her to receive Christ! See, her sister had twins last year and they were also premie (very common due to malnourishment and lack of healthcare).

But they died just after birth! Then Olga had twins and not only were they 2.8 lbs but there were sent out of the hospital because the doctor felt they would get sick and die in the hospital. And they thought Olga would die because she was also very sick! God spared the twins and her and has allowed us to help!

Everything we do is to improve lives and save souls. And because of those of you, who pray for us, encourage us, and support us financially lives are being improved and souls are being saved!

There is so much more to do and so many more lives to touch! Please continue to pray, support, and encourage us. **Because, every life touched and every soul saved is because of you!**

Partnering Opportunities:

- Alzheimer medicine for one woman \$150 a month
- Sign language school for two deaf children \$75 a month each
- Seven rakes for the garden \$10 each
- One two inch hose for the garden \$25
- Vehicle for Melissa in Honduras \$12,000
- Vehicle for the ministry in the US \$9,000

Be blessed,
Dean & Melissa Lowman
