Sustainable Agriculture

Empowering Food Security through Farmers

Empowering Farmers to use organic sustainable methods giving food security to the poor. We will announce more details soon.

The La Esperanza Hospital

Relationships lead to ministry

Above: in orange you see the [hospital](#) that needs re-roofing and more equipment. The process of giving equipment led to relationships with the administration and the doctors to whom we can disciple; which led to working with the lady's dorm in blue (the expecting mothers to whom we can disciple) which led to a garden for the ladies and the hospital in yellow, the *Sustainable*

Our Training is Complete

Henry Lowman with Mercy International shares about our training and endorses HRM.
