

DON'T DESPISE SMALL BEGINNINGS

Zechariah 4:10 NLT Do not despise these small beginnings, for the LORD rejoices to see the work begin, to see the plumb line in Zerubbabel's hand. For these seven lamps represent the eyes of the LORD that search all around the world."

This past couple of weeks we were blessed to have two different teams from the US. They both had 2 people on them. You might think what can a group of 2 people do? Well I must tell you that the time was filled with divine connections and work of the Lord and it is just the beginning of much more to come!

The first team consisted of a Pastor and a photographer/videographer. They came to see & document Heavens Reach Ministry in Honduras to help awareness of the projects and needs in Honduras, however while here so many other things came along. We continued to have one divine connection after another.

So we were able to share what we are currently doing, our vision for Victory Farms & met pastors and missionaries from Gracias Lempira & Santa Cruz de Yojoa. We now have a vision to expand our ministry from La Esperanza to these areas as well!

There is great need for medical clinics, building centers for alcohol rehab, senior citizens, deprived children, & homes for those that are living in houses that consist of plastic tarps, pieces of wood, dirt floors and no running water.

Pastor Hartung desires to bring 2-3 teams a year to assist in our work, with the first team scheduled to come January 28th, 2013.

The second team was a pastor & his wife from Texas who

Pastor Karen Hartung from Missouri and her son Brandon Hartung, photographer, videographer, Founder of Hartung Productions in Fayetteville, AR.

We met with the pastor and the director in charge of the Alberge in Gracias, Lempira, Honduras. Were we will start work next week. The expecting mothers in the background.

Meeting with local Honduran missionaries to Santa Cruz de Yojoa.

came to hold a pastors conference and teach local pastors the Purpose Driven Church, to empower the body of Christ to evangelize and grow an effective community of Christian believers who reach not only their people but the lost people of the world!

The pastors were blessed and even before half of the classes were complete they were asking the Pastor Simmons if he could come twice a year to teach them. They are so hungry for more information and ways to grow the Kingdom of Christ here in La Esperanza Honduras and the world!

The wife of Pastor Simmons is an RN. I was able to show her the local public hospital in La Esperanza, some of the pregnant women who stay in the Alberge & the garden project. She was able to see the needs and desires to assist with our work here.

We were so blessed to have them all here, to not only show them the work, but to become friends. We are so excited that this is just the beginning and we know it will bring more supplies, more resources, and more workers to help with all that is going on here in our ministry!

If you are interested in bringing a team, helping with a conference, sending supplies or equipment, or contributing financially to our ministry please go to our website www.heavensreach.org and or email us at dean@heavensreach.org or melissa@heavensreach.org

We would love to hear from you and host you here in Honduras! we are also on facebook at www.facebook.com/dwlowman and www.facebook.com/melissadlowman.

We pray many blessings for you and yours!

Dean and Melissa Lowman

Pastors Conference for the local pastors of La Esperanza, Intibuca, Honduras.

Pastor Kim and his wife Kay Simmons of Texas came and helped us with the Pastor's conference.
