

Heaven's Reach Ministries

Newsletter Dec. 2012

WHAT AN AMAZING YEAR!

I can't believe it is December already! This year has flown by. We have had tons going on personally as well as with our ministry! God is doing awesome things!

We had our first grandchild in April. She is now 7 months old, crawling, and saying Dada & momma. A true blessing from God!

Haley was married in October. She was a beautiful bride and it

was a beautiful day for an outside wedding!

We were able to have a second pond dug for our tilapia and were able to feed them to the pregnant mothers at the alberge on 3 different occasions this year. . We can't wait to see how this project continues to grow and multiply! The garden project has also expanded.

Our third crop

Last week we started planting our third crop of vegetables for the year. With the makeshift sprinkler system from the well we were able to grow our

corn over 6ft this year as well as beans and multiple different types of vegetables.

We started the teaching and planting of a garden for the Sustainable Healthy Living program in Gracias Lempira. The Gracias hospital there has also given us three Acers to grow food for the ladies in the Alberge in Gracias. This is the same town where we started having pastor conferences.

New Staff

God has not only blessed us with multiple schools volunteering in the garden but with two new staff members: Sof Alvarez and Isabel Matamoras.

Sof is a Honduran that grew up in Belize & the United States and came back to Honduras to minister. Sof has experience running alcohol rehabilitation centers in the United States that used farming as therapy and sustainability. He will be running one here in Intibucá when the funds come in to purchase the property & facilities as part of our Victory Farms Project.

Isabel is a Honduran that moved back to La Esperanza from Tegucigalpa where she was a bilingual secretary at a major church. Isabel is now the administrative assistant for Heavens Reach Ministry in Honduras and is teaching the Sustainable Healthy Living program to the pregnant mothers at the alberge twice a week.

Pastor's Conferences in La Esperanza and Gracias

This year we also started having Pastors Conferences. We were blessed to have

Kim Simmons

Ed Huie

Burt Kelley

Ron and Christi Bishop come to teach and share with the Pastoral Alliance of Intibucá & the pastors of Gracias Lempira. We believe this is just the beginning of **empowering and growing the Christian Leaders in Honduras, thereby saving the lost of Honduras & the world!**

We rely on your prayers and support. Thank you for being our partner in God's work. Please pray about these things for the upcoming year:

- Please always continue to pray for us & our family in the states.
- That God will send those He desires to minister here to the local pastors & local people.
- Victory Farms-the finances, resources & people needed for this project to come to fruition & impact La Esperanza, Honduras & Latin America.
- a 4x4 SUV and an upgrade of our 4x4 Toyota to a 4 door 4x4 pick-up to allow us to transport pastors & teams as well as minister more effectively here in Honduras.
- For our personal support and ministry support to grow.

May this letter find you well and blessed,

Dean & Melissa Lowman
