Heaven's Reach Ministries

June 2014

You can make the difference!

By supporting Heaven's Reach Ministries at \$25 a month you can be the difference in someone's life. Your prayers and support keep us in the field.

Thank you for being our partner.

We want you!

As we evangelize the schools and villages we want you to come and be a part of Heaven's Reach.

Four years of dreaming has come to fruition.

In 2010 Heaven's Reach Ministries started on the path to assure it had the ability to ship desperately needed medical supplies and equipment.

We use humanitarian aid to open hearts to discipleship. This is why we created an NGO, Non-Government Organization (the same as a 501c3 in the US) registered with the Honduras Government, to allow us the ability to bring in cargo free of tax. The NGO was approved in November 2013. We also registered with the USAID program to move the cargo to Honduras.

Last Thursday marked the first two truckloads of medical supplies and equipment brought through the USAID program. We now have the ability to ship every month or as we have the donations available to ship. If you or someone you know work in medical communities we would love to visit with you. We have lists of supplies and equipment that is needed right now. We can collect and ship it to Honduras.

The equipment and supplies that we received on this shipment will be distributed to at least 2-3 hospitals throughout Honduras. The primary hospital that we work with is in La Esperanza. This hospital is the only public hospital in the department of Intibucá with a population of around 250,000 people. We have a list of items that they need. We desire to ship in everything from those items to ventilators to the ceiling tiles that are missing throughout the hospital.

Consider coming as a team member, intern, or a staff member and let Heaven Reach through you.

You will experience God in a new and wonderful way as you serve Him and spread the Gospel.

Our first container cost over \$7,000 just to ship not counting port or tax charges. Our 2nd was donated. Our 3rd cost \$3,000 to receive it at the port of Honduras and get it to Intibucá. And that was after the Ministry in the US donated the biblical materials and paid for its shipping to the port in Honduras. Our cost to obtain the NGO, tax exempt & ship these last containers were around \$8,000 but now with the NGO and this program we can ship, receive and distribute humanitarian aid for \$2,000 a container, versus \$8-10,000 for 2 years then renew our NGO and tax-exempt every 2 years. This program is a blessing and an open door to bring in much needed supplies and equipment. We also hope to be able to help other missionaries bring in supplies that they otherwise could not afford to get here to help the people of Honduras.

My embarrassment became shame

While loading the supplies and equipment on the trucks I was talking with our friend Lourdes Mejia (she is on our Honduran NGO board and she & her family run a local medical laboratory) and as things would get loaded I would tell her basically what was on that pallet. The entire time I was thinking wow that doesn't really sound like much, it would be crutches, gauze, gloves, surgical masks, etc.

Lourdes looked at me and said this is going to help so many of my people. She said you know the top 3 things that the hospital needs is gauze, syringes, and gloves. She said the hospital has been

having to have the people go to local pharmacies to buy these items when they need them because they do not have them. She said "and the people cannot afford them."

Then today when we delivered a small portion of the supplies the nurses and staff were teary eyed and saying oh yes, we were completely out of gloves and gowns and now we have them. I was ready to go load the rest up and get it to them immediately!

My embarrassment became shame because I thought these things were too little and yet hundreds of people will be blessed because of God's provision.

He was about to die because he needed dialysis.

When we got to one pallet it had 2 dialysis machines on it and I looked at Lourdes and said I have no idea where these are to go, I know they require specialists and special care so probably to the city but...and she cut me off and she said "last year when my dad was sick, before

he died, he needed dialysis and there were so few machines that one day when he was about to die because he needed

dialysis so badly they let one patient stay on the machine for 2 hours (it is a 4 hour process per patient) and then put my dad on it for 2 hours then put another patient on for 2 hours. She said we tried the private dialysis clinic but it was very busy too and very expensive." She said "these machines will bless so many people." I

again was humbled. Please help me help others by donating medical supplies, equipment, and funds to get them distributed.

Please continue to pray for

Our family
Our finances as we expand the ministry
Our future projects for guidance and protection.

Thank you for being a part of our prayer team. We are blessed to have you praying for us.

Dean and Melissa Lowman
