A Miracle in the Making

Clinic in a Can

We have been given a 'Clinic in a Can'. This is a 40ft container that has been made into a medical clinic. It will provide permanent & consistent healthcare for those that cannot otherwise receive it. The clinic has 2 exam rooms, a lab, and a procedure room. It comes completely equipped with exam tables, lab equipment, lights, a procedure chair, maternal/fetal monitor, plumbing and electric.

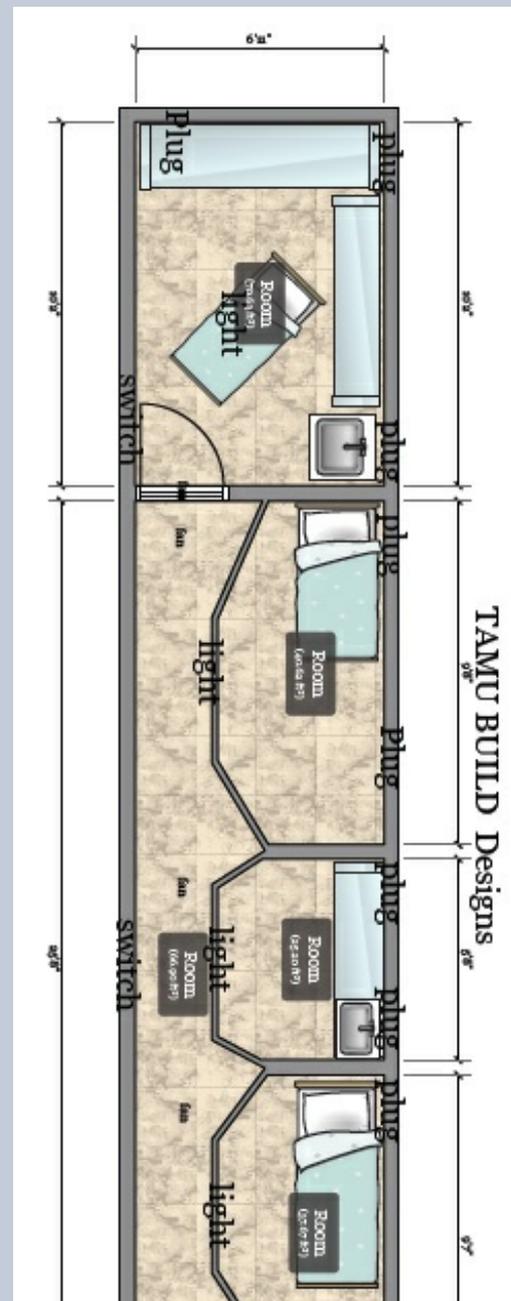

View the [walk through](#).

What does this mean?

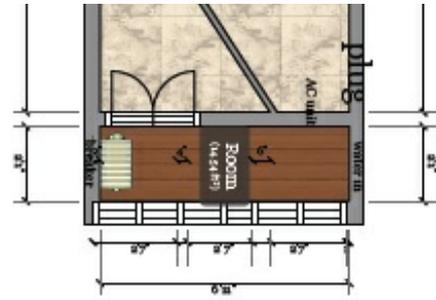

1. A permanent and stationary clinic for men, women and children in Intibucá, Honduras to come to 5-7 days a week.
2. It will allow us to perform needed lab tests and physical exams that are needed to treat not only immediate illnesses but chronic illnesses.
3. We will be able to give prenatal care.
4. We can have periodic dental clinics using the procedure room.
5. We can perform stitches or minor surgical procedures.
6. We will be able to provide medications for not only colds and minor illnesses but for chronic health conditions such as hypertension, diabetes, and hypothyroidism.
7. We will be able to have a continuous impact on the health of the poor of Honduras.
8. We will be able to share the love of Jesus with every patient we see.

Why is this important?

1. The maternal mortality rate is 100 per 100,000, which means that in 2010 there were **8,046**

which means that in 2010 there were 6,000 women that died during pregnancy or after delivery. Of this statistic most of these women come from the impoverished communities of Honduras due to lack of nutrition, prenatal care and lack of medical care.

2. The mortality rate of children under the age of 5 is 23 out of 1,000 births. Which means that in 2012 there were **5,000 children that died under the age of 5**.
3. 9.9% of infants born are born with low birth weight, which means **20,493 babies were born with low birth weight from 2008-2012**.
4. The Gross National Income for Honduras is \$2,070 vs the GNI of the USA \$52,610.
(Statistics are from UNICEF, Dec 2013 & World Health Organization)

What do we need you to do?

1. We need prayer for this clinic to improve the lives of the Hondurans by improving healthcare, longevity of life, and quality of life and that the love of Jesus will be shown.
2. We need **\$6,000 by November 17th** to ship the clinic from the states to Honduras on December 1, 2014.
3. We need **\$2,500 a month to run the clinic starting January 1, 2015**.
