Walking the Path

I sometimes wonder if we are doing any good by walking the path we are and if we are doing things that need to be done or are we just wasting our time trying to do things that are not needed or wanted.

We were invited to go to a community meeting in Pueblo Viejo the "old town". This is a community where we have been doing school ministry for over a year now. Our intern, a nutritionist, and I went to talk with them and ask them about the nutrition and life challenges. They shared with us that they want more access to fruits and vegetables.

They also had a profound concern about alcoholism. The men start drinking and get more depressed. This snowballs into suicidal thoughts. They take pesticides and kill themselves leaving single mothers to fend for themselves and try to take care of their children. This is why we are working on Victory Farms that includes a regeneration program for addiction.

They also said they wanted classes for the expecting mothers so they can have a good pregnancy and healthy babies. This is exactly what we will do in our clinic.

What a confirmation that we are doing the right things and making a difference. All of these programs are designed to bring people back to God and to help them live healthy physical and spiritual lives.

Thank you for being a part of Heaven's Reach Ministries. As part of our support team you are helping them through Heaven's Reach. So when we write to tell you what Heaven's Reach is doing know that you are doing it with us through your prayers and support.

May God bless you as you continue to be a part of this work God is doing in Honduras.

Planting Churches

We had a team come and start the church building in Lapaterique where we are now having church services in the church plant there.

We have another team coming soon to build the feeding center. This community has more than 46 families and many children.

Please pray for the harvest & that the Lord will send more workers and ministers to Heaven's Reach Ministry as it grows.

Victory Farms New Home.

We are well on our way to opening Victory Farms. With the team that came and put in the floor and bathroom we will be ready to receive our first students soon.

Thank you for reading our newsletters. You keep us in the field.

We are the hands but you are the body. We would not be able to do what we do without your prayers and support.

We invite you to come on a team and work along side us.

Your donation of any amount will be greatly appreciated and help us reach our goals of sustaining the work.

From the Heart

If I stop long enough to think about what I am doing will I think "wow how can I be doing this?"

Yes, that is what I think and fear over takes me. Then I remember that it is not I but God who is doing it.

I must pick up my cross and follow him.
That is what He has called me to do.
