**Water connected!
Trial run successful!**

With one of our last teams we used the clinic for four days of medical clinic.

This is the first phase of our God's Love Medical Center serving Intibuca.

We have been told to prepare to receive another clinic by the end of the year. We are also expecting third one next year.

We are working on ways to fund them and provide health services in the two new towns that they will be placed in.

We are praying for partners to help us provide services and medicine to everyone at a reduced symbolic fee.

Thanks to our last team we now have a building for our **feeding center in Lepaterique** where we are planting a new church.

This center will serve children of the 46 families in the neighborhood of the church plant.
