A Great Start to the Year

Little Brikny is 8 months old and has heart problems and needs surgery. She has 3 significant heart murmurs and a defective heart valve. She is also missing her left ear. They are presently doing several tests to see what kind of surgery and treatment she needs.

We have been helping her with formula, tests and trips to the Capital to see the cardiologist as part of our Medical Assistance Program. The good news is that she has gained weight and is progressing.

We have submitted her information to see if we can get her in a private hospital rather than the public one.

Please pray for Brikny and her family, that she will get the best medical care available, be healthy and her family will have comfort and peace during this time.

First of many teams

We were a part of the first of many teams for the year.

They came and gave medical treatment, food, blankets and prayers to many communities including the church at the center. They also did face paintings and vacation bible school.

It was wonderful to see the people light up when they saw the team coming. They were here for the first three days of their two week trip. The second leg of their trip is to Port Lempira in the department of Gracias A Dios, a swamp only reachable by air or boat.
