Heaven's Reach Ministries

Update March 26, 2020

We are praying for you

Together we will be Victorious

I thank you everyone who prays and support Heaven's Reach Ministries. You have been there all along the way. We have been able to so much together.

You are a part of what we do. You are on our hearts and minds. We are all going through this together. And together we will prevail with God at the helm. As we continue to look to God for His direction, protection, and provision, He will respond.

He has made us his children. He will take care of us. He will guide and direct our path. He is the light onto our feet. He will lead us on the road of Victory in Jesus. Know we pray for you. We ask God to bless you and keep you.

Thank you for being our friends and partners,

Dean and Melissa Lowman

Look what you have done.

You have feed the hungry and shown Gods love through us.

Do to the preventive measures in place here in Honduras we are not able to have church or feed the children. But because of your prayers and support we were able to deliver food to sustain 45 families who come to the feeding center and the Church in Lepaterique.

Your partnership Means we can continue to reach by Showing God's Love to Honduras and the World.

We also have students in our clinic. These nurses (Doris and María) are doing their clinical practice.

We pray for you.

If you have a prayer request please email us at dean@heavensreach.org

You are making a difference. And that Investment into the Kingdom of God will not return void. You will be blessed because you blessed these children of God.

The Love of God Medical Clinic was also open yesterday to help the diabetics and others on maintenance to receive their medicines.

Friend,

On a personal note. Melissa was to come to Honduras yesterday but the ban on international travel stopped her flight. She is in Arkansas. Mom and I are in Honduras at the ministry center in La Esperanza.

Currently we are staying in for the most part to respect the order of the Honduran Government. Some of the staff are able to move more freely. The town is blocked off from outside traffic except food, gas and medical. We are all safe and well with provisions.

The harvest is white and ready, pray for the Harvest that the Lord will send out laborers into His harvest. If it is not harvested it will die in the fields and be lost forever.

We will continue to pray for you. Please continue to pray for those to whom we minister and the staff of HRM.

Your prayer and support is making the difference in each life we reach.

God bless you all,

Dean & Melissa Lowman

We rely on donations

After hearing all that we do in Honduras. People ask me how we are supported. We are supported by donation and gifts from businesses, churches and individuals like you. every dollar counts. Together they add up to the need. If you give the amount you can our needs will be met. If you forward this email to others who will pray and or support this ministry God will continue to do great and awesome thing and open more doors. You can give any amount and God will multiply it to meet the budget that we count on to continue each day. A small amount given monthly will add up to a great help.
